Production Workshop 生产车间

柏明引用高精密设备，在产品的设计、模具开发、注塑成型、电镀、喷油、喷漆烫金、3D打印、丝印、组装等整个生产过程中，基本实现自动化管理及工序品质全检控制。

采用ERP管理系统和数字化管理系统，实时掌握产品生产进度、质量、异常状况等问题，及时对原材料、工艺、产品进行追溯，整个生产周期一目了然，让客户省事省力更省心。

严谨的生产工艺流程，必须通过原材料检测、生产、装配、检验等环节，研发中心与品质管控中心严密合作，更新汇聚各环节信息，向客户提供精准交货期，共同打造优质的差异化产品。

Boming in the production workshop uses high-precision equipment to achieve basic automation management and process quality control throughout the entire production process, including product design, mold development, injection molding, electroplating, oil spraying, spray painting, hot stamping, 3D printing, screen printing, and assembly.

By adopting ERP management system and digital management system, real-time monitoring of product production progress, quality, abnormal conditions, and other issues can be achieved. Raw materials, processes, and products can be traced in a timely manner, making the entire production cycle clear at a glance, saving customers time, effort, and worry.

A rigorous production process must go through various stages such as raw material testing, production, assembly, and inspection. The R&D center and quality control center work closely together to update and gather information from each stage, provide customers with accurate delivery times, and jointly create high-quality differentiated products.
